CAREER AFTER BPO COURSE

Individuals seeking employment/practice as a Prosthetist or Orthotist must obtain a Bachelor's degree in Prosthetics Orthotics and Certification from Rehabilitation Council of India

During formal education, students study biomechanics, gait analysis/pathomechanics, kinesiology, pathology, materials science, research methods and diagnostic-imaging techniques.

Job Duties

An RCI Certified Prosthetist Orthotist provides care to people requiring the replacement of a partially or completely absent extremity (artificial limb or prosthesis) or the custom-making and fitting of an orthopedic brace (orthosis) to a disabled spine or extremity. Professional practice includes assessment of patient needs, prescription recommendation, fabrication, fitting and evaluation of the prosthesis or orthosis.

In addition to functioning in the clinical setting as an active member of the professional health care team, the Prosthetist Orthotist is also responsible for educating patients, their families, other health care professionals and the public about prosthetic and orthotic care and services.

Placement Opportunities

Students with a degree in prosthetics orthotics are employed nationwide and generally have employment offers prior to graduation completion. Placement settings may include research facilities, hospitals, private and non-profit agencies.

DISCLAIMER

Candidates/Parents are requested to note that IIPO will make all reasonable efforts to find a suitable placement (both on Campus and off Campus) for its students. However, IIPO does not guarantee the same as the job market is dependent on many factors beyond our control.
